Ageu Menezes

AI Engineer & Front-End Engineer · React · Next.js · TypeScript · RAG

Ceará, Brazil (UTC-3) · ageumenezes23@gmail.com · github.com/ageumenezesDev19 · linkedin.com/in/ageu-m-costa-307852197

SUMMARY

AI Engineer with 3+ years on the front end (React, Next.js, TypeScript), integrating AI into systems: search that answers from documents and structured data extraction from free text. Sole front-end engineer of a production system a retail team uses every day.

EXPERIENCE

Front-End Developer — Retail client (freelance contract) Mar 2026 — Present

- Sole front-end engineer of an inventory and orders system used every day by 15 employees.
- Rebuilt the most-used flow, field visits and orders, for mobile: filling it in now takes about half the time.
- Write the API contracts the back-end developer implements; end-to-end tests and automated releases.
- Built the reports the team exports every day (spreadsheet, PDF and document).

Freelance Web Developer — Self-employed 2022 — Present

- Built Exacta for a retail tax routine: a manual process went from 1-1.5 hours to 30 minutes, with more accurate values.

SELECTED PROJECTS

Cortex — note-taking app with AI search

- Finds the text inside screenshots and answers questions, citing the note each answer came from.

Pitchfolio — AI assistant for freelance proposals

- Reads a job post, pulls out requirements and risks, and drafts the reply; its answers are checked by automated tests, including prompt injection.

Emerald UI — design system

- Nine components documented in Storybook, published from a monorepo.

AVAILABILITY

Open to freelance projects and remote roles. Based in Brazil (UTC-3), with overlap for US and European working hours.

SKILLS

AI	RAG, embeddings, hybrid search, LLMs (OpenAI, Gemini, Groq, local models), structured output, evals, prompt injection testing
Front-End	React, Next.js, TypeScript, JavaScript, Tailwind CSS, React Native
Back-End	Node.js, Express, REST APIs, PostgreSQL, MySQL, Prisma, JWT
DevOps	Docker, CI/CD (GitHub Actions), Vercel
Testing	Playwright, Vitest, Jest, React Testing Library
Languages	Portuguese (native), English (professional)

EDUCATION

Trybe 2021 — 2022

Web Development — intensive program. **Certified** in the Web Development Fundamentals module: Unix & Bash, Git & GitHub, HTML & CSS, JavaScript, DOM and unit testing.

Rocketseat 2024 — Present

Ongoing specialization — 11 certificates including:

- React Fundamentals & Advanced Hooks
- Next.js Fundamentals & Advanced
- Node.js Fundamentals & DDD in Node.js
- Design System
- DevOps Culture Fundamentals
- HTTP & Performance
